Guangzhou Zhuohao Technology Co., Ltd.

Leading the Smart Eyewear Revolution: Where Technology Meets Vision

Guangzhou Zhuohao Technology Co., Ltd. is a high-tech enterprise specializing in the research, development, and manufacturing of smart eyewear. With over twenty years of experience in consumer electronics R&D and production, the company strategically expanded into the smart wearables sector in 2019. We are dedicated to integrating advanced audio-acoustic algorithms, artificial intelligence (AI), and augmented reality (AR) technologies into our smart glasses, delivering more intelligent and convenient wearable experiences to users worldwide.

Consumer AI Glasses

Multi-language real-time translation, AI voice interaction, HD photography, and multimedia entertainment capabilities

Sports Smart Glasses

Perfect for cycling and skiing with integrated navigation, intercom, photography, and safety alert functions

Industrial Safety Glasses

Explosion-proof, dustproof protection with AR assistance and remote collaboration for various industries

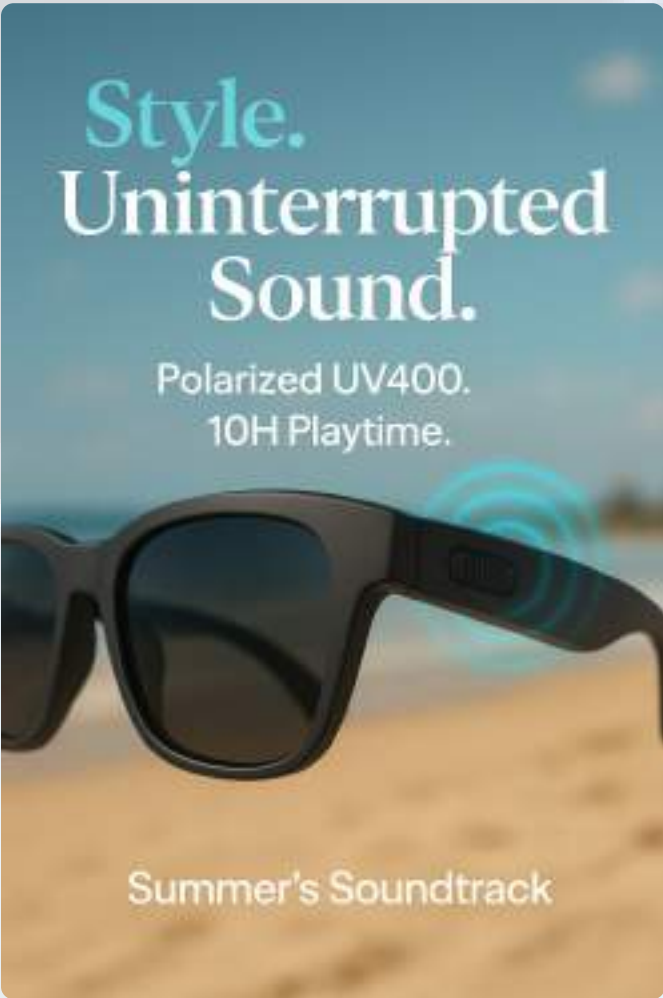

Hearing Health Glasses

Bone conduction audio technology combined with AI noise reduction for hearing assistance and children's myopia prevention

Technical Excellence & Credentials

- **20+ patents** covering optical design, acoustic systems, and AR algorithms
- **ISO9001** quality management system certified
- **30+ international certifications** including CE, FCC, IP54, and ROHS compliance
- Cross-disciplinary R&D team of hardware developers, software algorithm engineers, and structural designers
- Established and nationally registered corporate product standards ensuring technological leadership

Application Fields

Our products serve diverse sectors, transforming how people work, play, and live through intelligent eyewear solutions:

Outdoor Sports

Enhanced athletic performance with real-time data and safety features

Daily Office & Communication

Seamless connectivity and productivity tools for professionals

Industrial Manufacturing

Safety-first design with AR guidance for complex operations

Special Needs Assistance

Accessibility solutions for hearing impairment and vision health

Our Mission

Zhuohao Technology embraces the vision of **"Empowering Vision Through Technology, Connecting the Future with Intelligence."** We are committed to driving the popularization and practical application of smart eyewear technology. Through continuous innovation and a steadfast focus on user experience, we look forward to collaborating with partners across industries to pioneer the future of intelligent wearables.

"Innovation is not just about creating new products—it's about transforming how people experience the world around them."

Smart Bluetooth Audio Glasses

The next-generation smart wearable device blending technology and style

Core Functions

Smart voice assistant, one-touch calling, wear-detection for auto power on/off, voice control, advanced sound algorithm optimization

AI Translation

Optional AI real-time translation function, breaking language barriers, essential for business trips and travel

Long Battery Life

240 hours standby, 6-7 hours use, magnetic charging takes only 1.5 hours for quick replenishment

Technical Specifications

01

Battery Performance

85mAh large capacity battery, 6-7 hours continuous use, up to 240 hours standby. Magnetic charging design, 1.5 hours for fast charging

02

Connectivity Technology

Bluetooth 5.4 technology, stable connection, long transmission distance, lower power consumption, strong compatibility

03

Protection Rating

IP65 waterproof and dustproof certification, suitable for daily sports, sweating, and light rain

i Made with PC lens material, lightweight and durable. TR temples with oil spray process, comfortable feel, outstanding texture

Product Advantages

Smart Interaction

Built-in voice assistant, voice control for hands-free operation. Wear-detection technology, automatically pauses when removed, resumes when worn, smart and convenient

Business Calls

One-touch calling function, high-definition call quality. Advanced sound algorithm for noise reduction ensures clear calls, maintaining a professional image in business settings

AI Translation

Optional real-time translation function, supporting multi-language translation, removing communication barriers in international business, a powerful tool for expanding global markets

Package Contents

Smart Glasses Main Unit

Ergonomic design for comfortable wear without pressure during long periods

Included Accessories

Exquisite packaging box, dedicated glasses pouch, cleaning cloth, detailed instruction manual, and magnetic charging cable are all included

AI Feature Authorization

Includes full AI translation function authorization, ready to use out of the box, no additional fees required

Redefining the Smart Wearable Experience

More than just glasses, they are your smart lifestyle assistant. Blending cutting-edge technology with elegant design, tailor-made for modern urban elites

Smart Bluetooth Sports Glasses Product Specification

These smart Bluetooth sports glasses integrate advanced Bluetooth 5.4 technology and AI functions, providing consumers with a cutting-edge wearable experience. They feature a lightweight TR90 frame material and PC lenses, ensuring comfort and durability. The product is designed for sports and daily use scenarios, with an IP65 waterproof rating to meet various outdoor activity needs.

Material Specifications

- Frame: TR90 lightweight material
- Lens: PC polycarbonate
- Dimensions: 140×19/20-145mm

Technical Parameters

- Bluetooth Protocol: Version 5.4
- Battery Capacity: 100mAh
- Waterproof Rating: IP65

Performance

- Charging Time: 1.5 hours
- Continuous Use: 7 hours
- Standby Time: 240 hours

Key Features

- Smart Voice Assistant

Built-in AI voice recognition system, supports voice control and intelligent interaction
- One-touch Call Function

Convenient call operation, answer calls without taking out your phone
- AI Real-time Translation

Supports multi-language real-time translation, breaking down language barriers
- Sound Algorithm Optimization

Advanced audio processing technology, providing clear sound quality experience

- i

Magnetic Charging Design

Adopts a magnetic charging interface, making charging more convenient and contact more stable, effectively extending product lifespan.

Complete Packaging Accessories

- Smart Audio Glasses

1 pair of main product, integrating all smart functions
- Special Cleaning Cloth

1 microfiber cleaning cloth to keep lenses clean
- Glasses Pouch

1 portable storage bag, convenient for carrying outdoors

- User Manual

1 detailed operation guide and product introduction
- Charging Cable

1 dedicated charging cable, supports fast charging
- Polarization Test Card

1 polarization effect test card (optional accessory)

The product complies with international quality standards, providing users with a reliable smart wearable solution

AI Camera Glasses

40 grams only

end-to-end solution

8MP Camera

All-day comfort, redefined.
The next-gen smart eyewear

Adaptive Elastic Hinge Design, optional blue-light blocking lenses, and customizable myopia support — perfect for office work, studying, and entertainment.

12MP Smart Camera Glasses Quick Reference

See the below step-to-step tutorial

YouTube

12MP Camera Glasses Tutorial

12MP Camera Glasses Step-To-Step Tutorial

Built-in Camera

12 MP wide-angle lens with 6-axis gyro stabilization for steady shots.

All-Day Power

300 mAh battery provides 24 H standby and 1 H continuous recording.

Dual Control

Physical keys plus voice commands with "HeyDouBao" wake-word activation.

Stand-Alone Functions

- Photo and video capture
- Audio memo recording
- Phone calls
- Music playback
- AI chat assistant

Smart Design

Magnetic snap-charge for easy power-ups. RGB LED indicator shows every status at a glance, keeping you informed without checking your phone.

Quick-Start Guide

01

Power & Pair

Press left key 1 s to power on or 5 s (from off) to force pairing. Open app, enable Bluetooth & Wi-Fi, tap "+", select glasses, confirm pairing.

02

Daily Use

Photo: single-press right key or voice.

Video: long-press right key 3 s to start, single-press to stop.

Calls: single-press left key to answer/hang up.

03

Transfer & Save

In-app Album auto-detects new files. Tap to import, use top-right menu to save clips and photos to phone gallery.

Music Controls

Single-press left key: play/pause
Double-press: next track
Triple-press: previous track

AI Chat

Say "HeyDouBao" to activate AI assistant. Single-press left key to exit chat mode.
